

## Leslie Oxley-Friedrich

Realtor(S), RS-77328

**A** background in Interior Design and Architecture, as well as a Degree in Integral Studies, has fostered my professional full-time career in Real Estate. My deep affection and reverence for nature brought me to Hawaii, with its safe, pristine environment and rich culture rooted in venerated values and traditions.

Interpreting my clients' dreams and goals is my professional passion and privilege. My proven expertise and experience helps me to successfully navigate my clients through Hawaii's magical diversity of microclimates, landscapes, and all that island style and aloha living has to offer.

Outside of the office, I aspire to be a supermom. I am a self-admitted foodie. I adore traveling abroad (I was born and raised in Montreal, Canada, an exquisitely European-esque city), quiet days in or on the sea, doing Pilates and dancing, hiking, getting lost in a delicious book, and taking photographs. I also cherish any and all family time while playing in the paradise I call home.

Presently, I reside on the west coast of the Big Island of Hawaii. I am a Realtor Salesperson with Hawaii Life and a member of the Hokuli'a Sales Team in the exceptional, exclusive resort-style community of Hokulia.

*"From the beginning, Leslie listened to us describe what we were looking for and almost immediately found us the perfect property. Since we live on the mainland, we could have easily felt distant and unconnected from the process, but her attention to detail and communication skills made us feel like we were her top priority. When we were finally able to fly over and see the property, she treated us like royalty. We could not be more thankful for finding such a hidden gem in Hokuli'a."* -C.M. AND J.H. - HOKULIA
